

# Python for Decision Makers and Business Leaders

# "Every company is a software company"

Satya Nadella and Dieter Zetsche at #MWC19

# Choice of developer tech is a careful balance

A photograph of a modern library or archive. A curved row of white bookshelves is filled with books, some with orange spines. The ceiling is dark blue with integrated linear lighting. The floor is a light-colored carpet.

# Prerequisite knowledge and experience

- Experience working with technical teams
- Team lead, project manager, or business executive
- No programming experience required

# What will we cover?

- What can you build with Python?
- Python means three things
- Web development and Python
- Data science and Python
- Testing with Python
- Python vs. .NET
- Python vs. MATLAB
- Python with C/C++
- Hiring Python developers
- When not to Python

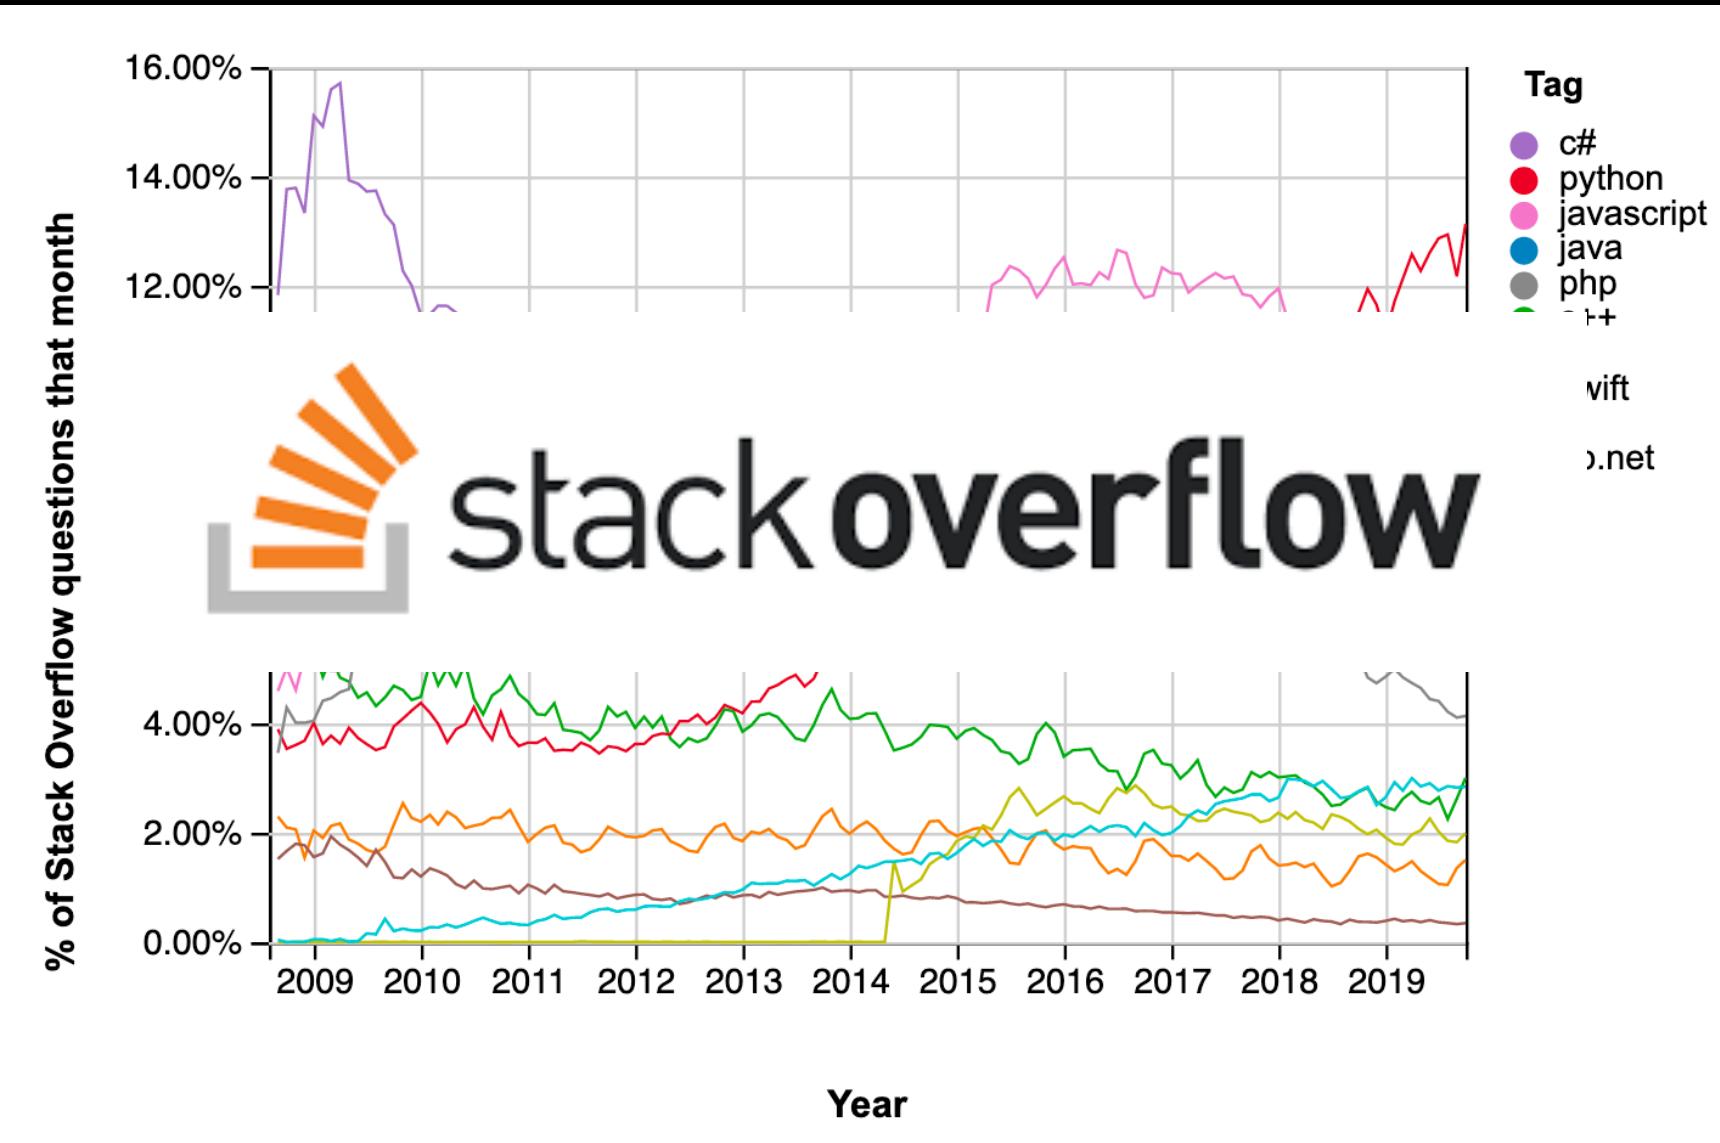

# The very brief history of Python

Guido van Rossum

1990	Python released
2000	Python 2.0
2005	Django web framework appears
2008	Python 3.0
2012	Data sciences adopt Python en masse
2020	Python 2 end of life

# Why Python?

<https://stackoverflow.blog/2017/09/06/incredible-growth-python/>

# GitHub repository and materials

The screenshot shows a GitHub repository page for 'talkpython / python-for-decision-makers-course'. The repository is private, has 1 unwatcher, 0 stars, and 0 forks. It contains 2 commits, 1 branch, 0 packages, 0 releases, 1 contributor, and is licensed under MIT. The latest commit was made 27 minutes ago by user mikekennedy with the message 'Proper title.'. The repository also contains .gitignore, LICENSE, and README.md files. A large banner at the bottom reads 'Python for Decision Makers and Business Leaders'.
